

Tense
TOP DESIGN SWITCHES

philosophy

**“Create your own style,
let it be unique and yet identifiable for others”.**

Orson Welles wasn't probably talking about light switches, but at tense we nurture the same thought. Every object in your interior, as ordinary as it might occur to you, gives you a chance to determine your style... The switches in your home are touched every day. Why not make them comfortable, contemporary stylish and easy to use?

COMPANY

TENSE is a young Belgian designer & manufacturer of TOP DESIGN SWITCHES, OLED switches, motion detectors and sockets for contemporary building projects. All employees have more than 10 years experience in related areas such as electronics manufacturing, home automation, design & lighting. As being an ISO 9001 certified company, TENSE always aims to be one step ahead of competition and to exceed its customers' expectations of top quality, innovative R&D, unbeatable service, in-time delivery and professional export handling.

PRODUCTS

Our high-quality TENSE touch products are stylish, easy to use, very reliable and designed with passion. Only the best technologies and premium raw materials are used to create our unique TENSE products, which are KNX compatible.

intensity glass

The design glass cover consists of 1, 2, 4 or 8 touch zones with colour LED feedback.
To be installed in a European standard wall box.

infinity

Room controller in glass / alu-bronze / corian with an oled display to visualize the different functions of your system (temperature / audio / scenes / etc.) with colour LED feedback.
To be installed in a European standard wall box.

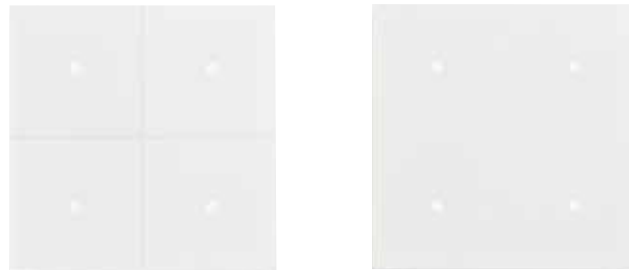

intensity alu-bronze

The contemporary alu, black alu, white painted alu or bronze cover consists of 1,2 or 4 touch zones with colour LED feedback.
To be installed in a European standard wall box.

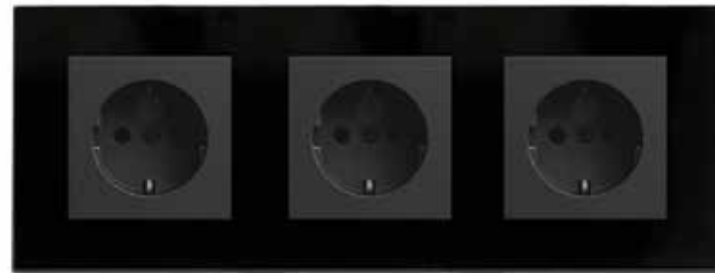

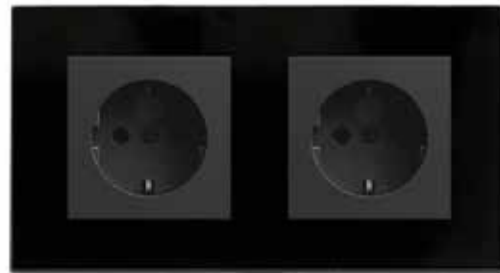

intensity corian

The minimalistic white corian cover consists of 1, 2, 4 or 8 touch zones with colour LED feedback.
To be installed in a European standard wall box.

socket cover plates

All matching cover plates in glass / alu-bronze / corian are available for your existing single / double / triple sockets.

product overview

TENSE products are available in different materials (alu-bronze / glass / corian) and in different colours.

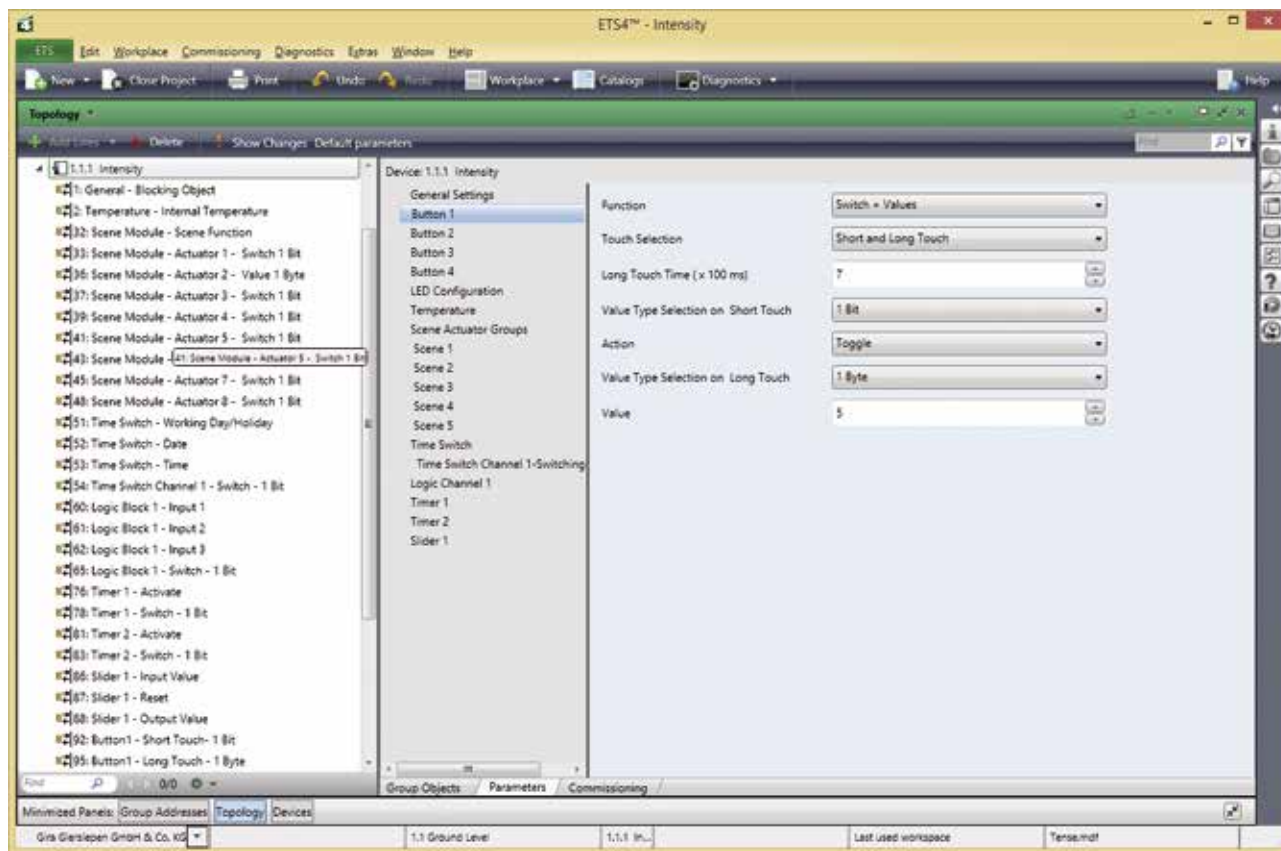

full scale motion detector

pir motion detector

Smallest detector in the world.
To be installed in the ceiling.

ETS software

All our KNX products support a broad range of diverse application profiles and are easy to be programmed via ETS. Furthermore, the firmware can be reprogrammed through the bus so that future applications can be supported in a flexible way.
